## Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

## S.S.S. For The Blood

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

## Men's Feet.

The man buying a pair of shoes found the right one perfectly comfortable and easy, the left one rather snug. "It's usually so," said the salesman, "the left foot is commonly a little bigger than the right foot."

"Why don't you make the left shoe a little bigger, then?" asked the customer.

"Well," said the salesman, "the difference is usually not great, and it might not be enough so that it would be noticed if trying on shoes. And then it is not so great but what the difference in feeling of the two shoes disappears very soon. And then, too, in some cases the man's right foot is the larger, the man being right footed in the respect as men are sometimes left handed, the reverse of the common habit in the use of their hands. If shoes were commonly made with the left a little bigger than the right, to fit the majority of cases, they'd be worse than ever when you hit a right footed man. So the shoes are made alike in size, a man gets a pair that fit him comfortably to start with and they adapt themselves quickly to any slight differences in the feet."—New York Sun.

## How Care Kills.

Wise people have long been aware that "care killed a cat," but it has been left to the X rays to explain how and why. Dr. Fritz Lange of Munich has turned his fluorescent screen upon the stomach of a happy and contented cat and has seen the process of digestion going on as it should in all well regulated stomachs. Then he has introduced care and irritation into the feline mind by placing a live mouse just beyond reach and has seen digestion stopped thereby.

The Society For the Prevention of Cruelty to Animals may cry out on behalf of the cat, or the mouse, or both, but the lesson against worrying is as complete as any Christian Science could desire. Worrying stops digestion, causes dyspepsia, retards all the normal physical processes and demoralizes both body and mind. It wastes the forces of life, destroying the tissues without accomplishing anything.—Chicago Tribune.

## Past, Present and Future.

The surplus of a life assurance company is of all things the most important to policy holders. It shows:

1. The good and careful management of the past.
2. The strength and security of the present.
3. The probability of continued profitability in the future.

The Equitable has a surplus of over fifty-seven millions of dollars, which is the largest surplus of any life company in the world.
